

Hollymatic R2200 Portioning Machine

The Self-Feeding Model R2200 is the perfect solution to your food forming and portioning requirements.

Able to form a wide range of products including meat, fish, potato, vegetable & ethnic, butter & cheese, into a variety of shapes and sizes, the R2200 is the industry standard for small to high volume food producers.

The R2200 machine can produce forms of up to 4.9" diameter with a production output of 2200 portions/hour.

SIMPLE AND SMOOTH OPERATION

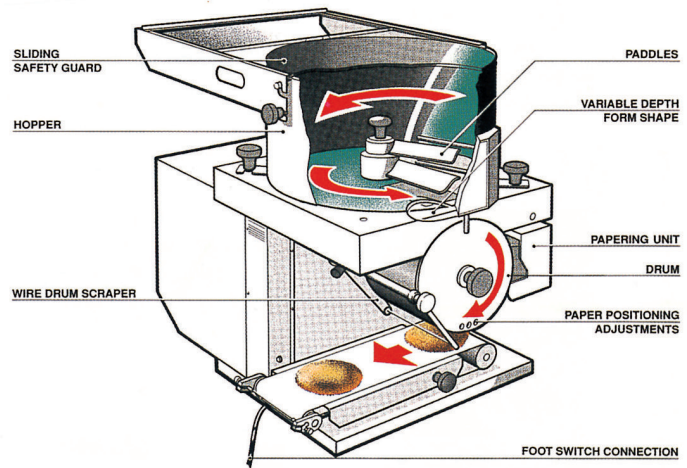

Simplicity is the strength of the R2200 system.

Suited to a variety of mixtures of numerous textures and consistencies, the R2200 uses synchronized paddles to gently press mixture into the required form shape.

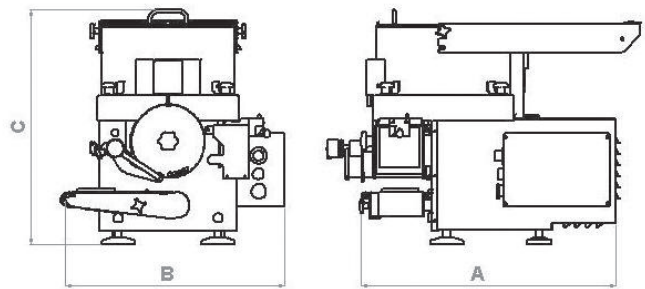

Assisted by the wire drum scraper, the formed product is then smoothly ejected and interleaved with paper onto the conveyor, presenting it for packaging or additional processing.

Portion Size:

Up to 4.9" diameter, adjustable thickness from 3/16" – 1". One diameter per drum, included with each machine.

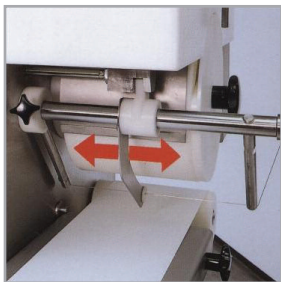

TECHNICAL SPECIFICATIONS

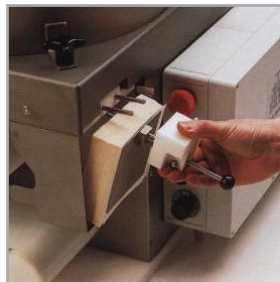

| Machine | Length (A) | Width (B) | Height (C) | Weight | Power | Electricity Supply | Hopper Capacity | Output |
|---------|------------|-----------|------------|----------|--------|--------------------------|-----------------|---------|
| R2200 | 27.6" | 23.6" | 25.2" | 210 lbs. | 3/4 HP | 1-phase 110 V, 60 Hz. | 33 lbs. | 2200/hr |

OPTIONAL EXTRAS
