## Hollymatic Stainless Steel Hydraulic Stuffers

FOOD PROCESSING EQUIPMENT SINCE 1937

## HYDRAULIC STUFFERS

The design, finish and the quality of materials give an exceptional reliability and long life.

This machine is available in three capacities - 28,55 , and 88 pounds and is made completely in stainless steel. The footprint of the machine is one of the smallest available, which makes it ideal for the majority of meat markets and processing plants.

These stuffers are provided with features that set it apart from others and ensure its succes in the market place.

Portion Control (option)

Hydraulic power unit. This is a self-contained stainless steel oil tank with the advantage that the oil does not get contaminated and regular oil changes are not essential. The pump is also safegarded; its working life extended and noise levels are reduced. Machines are delivered filled with oil and can be put into operation immediately.

Stainless steel head cover has twin-locking handles and is completely removable for ease of cleaning. An o-ring seal is also fitted to reduce any risk of leakage. The piston is fully stainless steel, is detachable, and connects to a stainless steel ram.

Portion Control Option: Capable of portioning from 0.7 to 17.6 ounces.
